TEACHING

Graduate Courses at Florida Gulf Coast University:

EDA 7110 Universal Design for Learning in Leadership

Explores the Universal Design for Learning (UDL) framework for implementation in a learning organization at the administrative level. Students will be provided with opportunities to develop and reflect on building successful, evidence-based systems of learning in a landscape of barriers.

EDA 7193 Instructional Leadership

Students examine the research literature concerning effective teaching and instructional improvement strategies appropriate for PK-12, postsecondary settings, and other educational settings. Students apply models of instructional leadership, including formative and summative evaluations.

EDA 7197 Current Issues in Education & Leadership

Addresses major, global issues, and reform efforts in education. Course emphasizes issues that impact student achievement and other measures of accountability; particular emphasis is on the impact of technology.

EDF 7517 History of American Schooling

The history of primary and secondary schooling from the colonial period to the near present is explored, including periods of significant transformation and the forces that have produced continuity over time. The interaction between educational practices and the larger cultural, social, economic, and political context is considered.

EDG 7925 First Year Doctoral Colloquium

College of Education graduate faculty members and other knowledgeable speakers introduce current empirical literature and other scholarly materials and facilitate discussions with doctoral students to nurture critical thinking and scholarly inquiry on a variety of pressing K-20 education issues.

EDG 6627 Foundations of Curriculum & Instruction

Provides an introduction to curriculum and instruction at the graduate level, basic to all specialized courses in the field. Course emphasis is on foundations, design, basic concepts, theory, and trends of curriculum from early childhood through secondary levels.

EME 5053 Introduction to Educational Technology

Provides an overview of media and technology in education and issues of integration of technology. Course will survey theoretical issues and trends in educational technology and impact on selection, design, utilization, and evaluation of instructional media.

EME 6235 Professional Practicum

Provide a context for industry and school-based leadership skills in managing educational technology projects in formal and informal learning environments. Includes managing, planning, administration, training, leadership, budgeting, ethics, evaluation, and grant writing.

(Formerly) EME 6235 Managing Educational Technology Projects

Provides a context for industry and school/district-based leadership skills in managing educational technology projects in formal and informal learning environments. Includes managing, planning, administration, training, leadership, budgeting, ethics, evaluation, and grant writing.

EME 6405 Technology Integration

Application of computing and related technology to teaching and learning process. Course intended to review various multimedia applications intended for teaching and learning with a focus in how to integrate these applications into formal and informal classroom settings.

EME 6408 Universal Design for Learning

Introduction to the Universal Design for Learning (UDL) framework. Emphasis on how to design instruction, environments, and assessments using the UDL framework's principles and guidelines.

EME 6417 Teaching in Virtual Settings

Explores applications related to virtual and online participatory learning environments. It focuses on designing/organizing, managing, and utilizing online resources and technologies for virtual learning and instruction.

EME 6425 Technology for Educational Leaders

Provides information and skills necessary for leaders to effectively use technology to achieve school/organization and system goals and to use digital tools to successfully build and maintain relationships with stakeholders, such as students, faculty, parents, and community.

EME 6609 Instructional Media Resources

Design, production, and evaluation of educational media aligned to the curriculum and standards of the educational institution.

EME 6617 Instructional Design e-Learning

Provide educators with the experience and skills to appropriately analyze and design online courses using approaches known to be effective for all learner levels. Students will examine models of virtual learning environments, their underlying philosophies, and their implications on learning.

EME 6716 Media Services & Programs

Provides a context for media services. Study of media/free choice/experiential learning environments in terms of administration, development, management, planning, and policy.

EME 6936 Current Trends in Ed Tech

Course designed to apprise students of latest trends in teaching and learning as related to educational technology and digital media.

EME 6940 Professional Internship

Practicum or field experience under the supervision of a faculty advisor for applying program learning outcomes to PK-12, higher education, or business/industry.

Undergraduate Courses at Florida Gulf Coast University:

EME 2040 Intro to Tech in Educ.

Introduction to computers and technologies and their function in the classroom to augment the teaching and learning processes.
